Co-Op Buying

So they have hit upon the idea of

So they have hit upon the idea of forming a community foodselling organization which will enable them to food practically at cost. The proped plan is to eliminate the middle-nin all food transactions: to use the public schoolhouses as distributing centers and to make every housewife in the district a member of the organization without asking her to subscribe a nickel.

organization without assists subscribe a nickel.

First Time in History.

This is the first instance in the history of the country where an entire city has undertaken to unite all the inhabitants into one large, co-operative agency. There are a number of small cooperative organizations in this city and elsewhere, but only those who have subscribed for stock can trade in them. Such is the plan of most cooperative agencies here and in Europe. The community organization proposed for Washington will take in every family in the district.

The whole scheme is nothing more than the enlargement of a plan that has proved successful on a small scale. For several years, John G. McGrath, an employe of the treasury department has been acting the role of fairy prince to a large number of other federal workers helping them to purchase at cost much of the food used on their tables. His plan was to go into the territory surrounding Washington and buy up foodstuffs from the farmers and then sell it to his friend and other people in the departments. He got nothing for his trouble, except the pleasure of operating his hobby. The only additional charge to the consumer was the cost of transportation, The demand for such food was always greater than the supply, as the prices demand for such food was always greater than the supply, as the prices generally ranged from 10 to 25 percent below what it would cast at the mar-

Used Mail and Schoolhouse.

In carrying on this business, from which he derived no profit. Mr. Mc-grath made use of two public agentles—the parcel post and the school-Grath made use of two public acceptance parcel post rate of one cent per pound within a radius of 150 miles made it possible for him to have food shipped into the district quickly and cheaply. In case of extra large shipments he would dispose of the food at a schoolhouse, others are the radial would be made at his

The cooperative idea is not now by any means. It has been practiced in the British Isles and the continent of Europe for many years. The Rochedule plan of cooperation has been found to work most successfully in Eugland. This plan is for a number of Idea Is Not New. (Continued on page 2.)

SENATE GETS TREATY PROTOCOL; WHEAT PRICE MAY LOWER H.C. OF L.

Janesville, wake up! Come out of your apathetic frame of mind! You have work to do and you are sleeping on the job!

Building of homes must go forward without any more delay or those residents who are here on the ground floor are going to be the losers. There is going to be a new Janesville, entirely separate from the old town, unless someone gets busy at once and makes efforts to meet the housing emergency we are facing. Can you property owners afford to have this brought about?

In the last two or three months there has been a feeling of secureness on the part of those who could help in pushing devlopment of the city, that has a bad effect upon the entire community. Those who will benefit by the entrance of the Samson Tractor company evidently have assumed now that one unit of the plant is built, another in process of erection, and plans made and work started for a big foundry, they can afford to sit back and take the profits on their investments which have grown since Janesville has become the home of a large industrial concern.. It is the opinion of men who know that this is not a safe course to pursue. This is not the time to sit back and let the other fellow do it.. The other fellow will do it if he needs to, but he will do it in a way that will not be to the liking of those who make up the population of what is now Janesville. .Get that—what is NOW Janesville.

We might as well get right down to hard rock on this proposition.. The Samson Tractor company must have men to operate its plant. It cannot bring men here until houses are provided for them. The company has declared that it would give Janesville a reasonable time in which to provide those houses. The company has spent considerable money already and is preparing to spend much more. It will wait for a time but it is not going to pocket a financial loss simply because the men whoc an afford to build houses fail to have vision enough to see what it means for the

future of the city. If Janesville does not build homes, the Samson Tractor company will be forced to. It is not going to scrap its plant, that is a

We have made a fairly good star, but unless we hustle up we are going to make a mighty poor finish. The housing corporation is getting along fairly well, as far as this paper has been able to ascertain, although news of the progress being made is difficult to obtain. The stockholders of the corporation are not more than luke-warm over the proposition—in fact some of them have not paid in their last subscription.

The Matheson-Lindstrom company which is building houses out Milton avenue way is really accomplishing something. At least it has several houses about ready for occupancy. Experts declare that the houses are well built and the company should have cooperation in their project, for every house it builds relieves the sit-

Individuals, the names of whom we have not been able to obtain as yet but who will be put on an honor roll as soon as it can be prepared, have erected and are erecting houses. They will receive their reward in increased property values as well as in knowing that they have done something for civic betterment.

But these are not enough. They do not begin to answer the need. We need houses that can be rented. We need houses for the man who cannot buy at this time—who will not buy as soon as he reaches the city. We need houses that can be rented at the lowest possible price as well as houses of better grades. But we must have houses-and more houses.

The question, then is: "How are we going to get them?" Suggestions are sought by the Gazette, for this newspaper believes gestions are sought by the Gazette, for this newspaper believes gestions are sought by the Gazette, for this newspaper believes been an avorage increase of 120 percent in the cost of wearing apparei, that the problem can be worked out if the people are awakened to the necessity for quick and certain action. Already Janesville has grown, and as a result property values have jumped. That should be proof enough that home-building will be profitable. There is no longer any doubt about what the Samson Tractor company is going to do. The plans it has made are definite. The officials will not for when they build they look to the future and if obstacles appear

they overcome them. A serious obstacle looms large on Janesville's horizon—that of providing homes as quickly as men can build them. If Janesville's citizens do not respond to the call for quick action the Samson Tractor company will. Remember the company has a lot of vacant land outside the city limits. It lies just right for workingmen's

"WAR IS MURDER" IS ARGUED IN FORD TRIAL

Mount Clemens, Mich., Aug. 1.—
Francis W. Coker, professor of political science of Chio state university, took the witness stand today in behalf of Henry Ford, who is suing the Chicago Daily Tribune for \$1,000,000 on a charge of libel.

Professor Coker said he had read the Ford Pacifist advertisements, "Humanity and Sanity," "Concerning Preparedness;" the articles on Mr. Ford by Edward Marshall, John Reed, Willis J. Abbott, and Charles N. Wheeler, and the expert testimony of Professor Reeves, president of Dunning, and Bishop Williams, Attorney Aifred Lucking, senior counsel for Mr. Ford, opened the examination. Witness first took up the assertion of Mr. Ford that "war is murder" which counsel for the Tribune claims is anarchistic sentiment.

"It has been so chaaracterized by many others," said the witness, "Victor Huge, Martin Luther, James Russell Lowell, Douglas Jarrold, Voltaire, and frequently in the proceedings of peace societies."

Ministers of the gospel largely regarded war as murder, the witness said, and he mentioned Washington Gladden, William E. Channing, Lyman J. Abbott, and others.

"So the belief that war is murder is not peculiar to anarchists?" asked Mr. Lucking.

"It is not," responded the witness.
"The opinion is held by men of all shades of belief and unbelief."

HYPHENISM AGAIN?

A few nights ago a big gathering of German-Americans in Liederkranz hall, New York, said and did things that should make the rest of us stop

Did those present rejoice in their American citizenship and in our vic-tory in the war with forces of cruelty and oppression? Not noticeably. This is what happened:
A speaker declared that Germans

"must do all in their power to bring the German spirit, kultur, and educathe German spirit, kultur, and duda-tion to America and to the world." Certainly this is no new idea. We were thoroughly fed up with this sort of talk during the period when Eng-iland and France were battling des-

perately while America looked on. And how did the speaker propose to introduce kultur in America? Why, iby propaganda, of course. Doesn't it seem remarkable that the folly of this silly propaganda scheme hasn't been recognized before this time by its old

friends?

A judge from Cincinnati, speaking partly in English and partly in German, said that Germans in America must do all in their power to support and strengthen the "dear old fatherland." He was warmly applauded.

Most of us have rejoiced in the belief that the way applicant dear the property of the property of

lief that the war obliterated hyphenism. We had no better soldiers than most of our boys of German descent, many of whom won medals for brav-ery and whole-hearted effort. Their olders, once we were in the war, seemed to yield at last in a desire to prove themselves 100 percent Ameri-

Is hyphenism coming back? we to face the necessity of resisting a new infiltration of kultur? Are we to witness a revival of stealthy pro-paganda against England and France? Will hyphenism get into our national politics again to befoul and besmirch

That us hope that our good Americans of German descent will answer for us with a decided "NO."

We have sampled kultur, and do, not like it. Those who try to introduce it will fail, and get themselves

We have sampled kultur, and do not like it. Those who try to introduce it will fall, and get themselves disliked in the bargain. We are all going to be Americans now. We can sympathize with suffering, even in the lands of former enemies, but we've got to stick together for American spirit and American institutions.

A PREDICTION.

Millions of words remain to spoken by President Wilson on his proposed tour and by sonators before the peace treaty is finally acted upon. Weeks will pass, and tremendous efforts will be made throughout a hot muggy summer to shape developments in this way or that. Finally, when everyone has had his say—and now we come to the prediction—the senate will raitify the treaty with reservations or interpretations about as suggested by Charles E. Flughes and former President Tatt.

Then, when the dust has subsided, we shall find that we are in the league connot interfere with matters like the tariff or immigration, that It cannot have any chance he say yea or nay as to our administration of the Monroe does.

chance to say yea or nay as to our administration of the Monroe doc-trine. We shall be able to leave the league when we like, and congress can, do as it likes about entering any new wars that come along.
Friends of the administration will

say that these reservations merely claborate and make more definite terms already in the covenant of the league. Opponents will say that by standing out they have kept the United States in an absolutely independent position, so that it can do exactly as it likes in the future, as it has done in the past. There is merit in both contentions.

What the league, will amount to will depend entirely upon the spirit of future American administrations. If Washington in the future is disposed to act with the other powers and help keep the world on an even keel, the league will be a success. If forthcoming administrations are inclined to tell the remainder of the world to go

hang, the league will collapse.

The world needs steadying very badly. Conditions everywhere are dangerously shaky. America today is richer and more powerful than any three other nations, and her influence as a stabilizing force can be of incalculable benefit to the rest of the world if she chooses to say, in a bustness-like way: "Let us have peace."

We have another reason to be thankful. Local milk dealers declare that the price of milk will not be raised although they have to pay more for the product. This announcement is cheering to those who yesterday read that Chicago milk dealers had slapped another cent to the price of a quart.

Westminster hall, where England would stage the trial of the ex-kaiser, has been the scene of crises in the lives of royally before today. English kings, have been crowned and proclaimed there, and have celebrated their rise to kingship by costly banquets and merrymakings in the same vaulted chamber where they made their royal vows.

Here Guy Fawkes, of the gunpowder plot, Warren Hastings, governor general of India, Charles I, and Anne Boleyn pleaded for their lives. Hastings' trial lasted eight years, while king Charles was sentenced to die after four days proceedings.

It was in Westminstor hall that Oliver Cromwell, gorgoously, attired in the purple and ermine and regalia of a king, was installed in the democratic office of lord protector of the commonwealth, and a little later, it was from the root of Westminster hall that Cromwell's head was displayed on a pole.

was from the root of westminsterhall that Cromwell's head was displayed on a pole.

In a little less than a thousand
years of existence, the old hall has
seen the big events of English history.
Yet it adapts itself easily to less pretentious situations. For many years
in an age that had not thought to invent the hotel lobby, it served as a
sort of Peacock alley, where the fashlonable and unemployed might pass
the time of day.

Westminster hall is long and vaulted, like a Gothic cathedral. Arched
oaken beams support the roof, unaided by central pillars, so that the
effect of vastness is increased until
the hall seems immense. The builder,
William Rufus, is reported to have
said that his hall was a mere bed

adds that if so it is a bed chamber in

London—"We have the same common heritage; we have the same ideals of liberty; we are animated by the same common cause. It is impossible that any serious differences can ever arise between Great Britain and the United States."

These are but a few of the sentiments expressed by Lord Reading during his speech at a luncheon given in his honor by the Overseas club recently. He spoke with authority; as one having occupied the position of British ambassador to the United States during the past two years when Britain and America were united in the effort to cruch Germany.

"There is a strong and determined offort on the part of certain factions in the United States to stir up trouble with England," said Lord Reading. "I sincerely trust, and believe, that no attempt will be made here to answer this anti-British propaganda. It does not represent, the real sentiment of the people at all—of the people that count, at least.

PROHIBITION HAS LESSENED WORK OF POLICE DEPARTMENT

THIERRY YEAR AGO

One year ago today, while the people of Janesville were sleeping peacefully far from the battlefields of France, Company M, composed of Janesville boys, was ordered into the battle of Chateau Thierry. The men were loaded in auto trucks and rushed to the scene of the fighting with the hopes that with the aid of the marines they could stop the ourushing Germans.

ATTRACTS GROWDS

A number of Janesville people went to Beloit to witness the big spectacle. "The Battle of Chatemu-Thierry" which was produced at Morse Field last night and will be staged again tonight and tomorrow night. Because of the rain Wednesday night, the performance was postponed until last night and the entire program set a head one night. Three hundred and fitty people take part in the pantomine and pyrotechnic spectacle. It is a reproduction of the battle of Chateau-Thierry, the turning point of the war.

war.

Realistic cannon and bomb effects are produced by means of fireworks. Real machine guns, a baby tank and field pieces are used in the scene where the Marines capture the Germans. People playing the parts of Red Cross nurses, nuns and villages add realism to the scenes.

Boloit is the only place in Wisconsin where this spectacle can be witnessed.

SOLOS AT BAND CONCERT.

George Waldman, tenor, sang a few selections and responded with en-cores at the band concert last night. The concert was well attended. The band gave a program of eight numbers. MARRIAGE LICENSES

Company M entered the fray on the morning of August 1, 1918, and in less than 12 hours had progressed many yards beyond their objective. During the first day's battle two members of company M were killed and four wounded. The two men of the company who were killed and four pany who were killed were not Janesville boys, having recontly been sent to the company as replacements.

Veterans of Chateau Thierry who are back in Janesville tell in a modest way of the manner in which the Germans were repulsed during the great fight by the famous Thurty-second division. JANESVILLE MAY GET FRANCHISE IN LAKE SHORE BALL LEAGUE

Janesville may become a member of the Lakeshore baseball league within a few days, according to a telegram received by the Gazette today from J. A. Murphy, manager of the Lawrence Janes, who is in Milwaukee endeavoring to arrange games. He wires that he has made application for a franchise in the league, and was scheduled to meet Dick Marcan, president of the league, in the Cream City this afternoon. He will be home with full information in regard to the matter tomorrow.

Should Janesville succeed in obtaining a franchise it would be the biggest boost for baseball in this city that would be possible. The league is composed of six teams—Manitowor, which is now leading with a percentage of .867; Sheboygan, Racine, Wauph, Milwaukee White Sox, and Kostikkos.

pan, Milwaukee White Sox, and Rossuskos.

The Milwaukee White Sox quit the
league yesterday because of a squabble which arose out of their game
with the Kosciuskos last Sunday. Although the Sox came out on top, 6
to 3, the game was declared forfeited
to the Poles by a scor col 9 to 0 because the Sox played Artic Bues on
hird bease after it had been docided
by league officials that he was not
the property of the north-siders and
that he must not be used in their
lineup under forfeiture of the game.

The Sox, dissatisfied with this ruling,
decided to quit the league yesterday.

This leaves an opening which many
teams are now after. The result of
Murphy's efforts will be awaited with This leaves all of the result of Murphy's efforts will be awaited with interest by local fans. He is accompanied by Henry Kueck, local team supporter, on his Milwaukee trip.

It looks very much as if the popular fabric for street afternoon and informal wear would be paulette. Last fall sain was the dominating material, but this season paulette, that silky material which resembles tricolette, will fashion the most modish frocks.

The material is so very rich that it needs no trimming and so most of the frocks made from it are modishly cut on very simple lines. This one pictured is one of the newer models with a long tunic over a tight foundation. It is navy paulette cut simply and trimmed with bands of wide silk fringe braid. The braid is icoped at the neck and resembles the ting bands of ostrich trimming which have been used this season. Sewing Scalp Wounds.

Our little girl, aged four, fell from the porch and cut her scalp, it bled freely, and we'tried everything, without success, until somcone advised cobwebs, which finally stopped the bleeding. Their her mother took her, to a drug store, and the druggist put on some gause, and adhesive tape. She thought that would be less likely to cleare a scar than would sewing by a doctor. Is that correct? (S. P. A.) ANSWER—A scalp wound usually gapes more or less. Therefore it is usually advisable to sew it together. The bleeding was about ready to stop when the cobwebs were thought of. The druggist should have referred the child to a physician instead of assuming flust function. Sewing leaves less scar than makeshifts.

Too many young women at about your age get the nursing bug complicated with romance. A nurse's (life is a hard one, with many disagreeable features.

Fanny was always languishing at him, twenty-odd years ago, before he left here. Well, we can't blame the poor thing if she's got her hopes up again, and I don't know that I blame her, myself, for using your mother the way she does."

Why Did He. An American. Love This French Girl In Egypt?

An Odd Romance Among the Pyramids

What was the potent charm of Aimee—the little French girl reared in an Egyptian palace—that impelled Jack Ryder, an American, to fall so passionately in love with her? Was it the fiery emotion of Egyptian love? Was it the light in her eyes? Was it the warmth of her kiss? Was it the flaming passion of her embrace?

But I mean - ther confusion betrayed itself. "But I mean—that you are magic." he murmured, bending over the black domine. By Mary Hastings Bradley STARTS IN NEXT SUNDAY'S CAGO SUNDAY

A hundred members of the coantion in the house of commons have protested to the prime minister against the transport bill. This bill gives the new minister of transport. Sir Eric Geddes, control over highways, road transport, railways, tramways, docks, canals and coastwise shipping. It is now proposed to add electric power.

Sir Eric claims that the ministry will have no greater authority than the board of trade formerly held. Opponents charge that the bill makes him a dictator with far more power than Secretary McAdoo had in the United States as director-general of railroads, and that his office nlight make and wreck industries and communities.

Parker Pen sluggers will still be well in the lead when the day's hostilities are over.

The champion pen-makers are due to battle the Products nne, at 3 o'clock at the fair grounds. The kiddie carty manufacturers are now occupying third position together with the Samson Tractors. The way tho dope stands the penmen will win but if they shouldn't, it is going to make matters more than interesting in the league. Yiney is slated to pitch for the Parker nine tomorrow. The battery for the Products has not been announced.

Down at the Samson park activities will start at 2 o'clock sharp when the Samsonites and Y. M. C. A. nine will clash with Georgie Berger heaving for the former team and Secretary St. John doing the heavy for the "X." The tractor bavorters will win easily, dope says, not so much because of their past performances but because of the weakness of the Y. M. C. A. nine which has not won a game this year and is occupying a lonely berth in the cellar with three overwhelming, defeats. Despite the discouragement that has been heaped on them they are atilify game and under the leadership of Manager J. N. Thayer they hope to the samson. The Barb'. Wire-Machine Co. game.

The matter will be thoroughly thrushed out and it is possible that if the machinists win the fight for justice, the game may have to be re-played. J. A. Murphy, who umpired the game, will be called in for the ruling, together with Lathrop and other members of both teams.

Wall Street Gossip.

The money situation weighed on the stock market during the first hour, but a pronounced change for the better set in before noon, when call loans were freely made at six to seven percent. Early declines were most severe in tobaccos and motor specialties where reactions extended from 2 to 6 points. U. S. Steel and Crueible, led the rally with oils, leatners and American Writing Paper preferred. Rails and shippings registered substantial advances on the demand for Southern Pacific, Texas and Pacific, Atlantic Guif and American International.

Stringent money conditions as indicated by yesterday's unexpected rise in call loans to 15 and 20 percent, were mainly responsible for the uncertain tone of the stock market at the opening of today's session. Gains ranging from large fractions to 2 points in oils, equipments, tobaccos and shippings, were offset by reactions of greater extent among motors, metals and sundry specialties. United States Steel was moderately heavy and rails were only occasionally quoted at irregular changes in the first half hour.

Steols and oils recovered again in the last hour and high priced special.
